* the OB Framework

1. Individual Level

→ Studies employee behavior as an individual

ex: Why some employees are hardworking while others are careless

2. Group Level

→ Studies behavior of teams

ex: How leadership affects team success

3. Organizational Level

→ Studies the organization as a whole

ex: How company culture influences employees.

Why OB Framework is important

- Helps to understand employee problems
- Improves productivity
- Reduces conflicts
- Builds strong teams
- Supports better decision making

* OB Models

- It explains how organizations manage employee & how employees are motivated.
- There are 5 main models:

1. Autocratic Model
2. Custodial Model
3. Supportive Model
4. Collegial Model
5. System Model

1. Autocratic Model:

→ Based on power & authority

Features

- Manager has full control
- Employees must follow orders
- One way commⁿ

Employee motivation

- Fears of punishment

Result

- Employees depend on the boss
- low creativity & low job satisfaction

ex:

- Military organizations
- Old factories

2. Custodial Model

→ Based on economic security

Features

- Organization provides good salary & benefits
- Employees feel safe about their job

Employee motivation

- Money & job security

3. Supportive Model

- Based on leadership & support.
- Managers ~~Based~~ guide & support employees.
- Employees are encouraged to share ideas.
- High job satisfaction
- Better performance
- Positive work environment

ex: - IT companies

- Modern organizations

4. Collegial Model

- Based on teamwork & Partnership.
- Managers & employees work as a team.
- Mutual respect
- Shared responsibility.

Employee motivation

- Self-discipline & responsibility

Result:

- Strong commitment
- High morale
- Better teamwork

ex:

- Research organizations
- Startups
- Universities

5. System Model

→ Based on trust, values, & shared goals

Features:

- organization is treated as a system
- Focus on ethics, trust, & meaningful work
- Employees are respected.

Employee motivation

- Purpose & Self growth

Result

- Self-motivated employees
- High loyalty
- Long-term Success

ex:

- Value-based organizations
- Mission-driven companies

Models	Based on	Motivation Source	Employee Result
①	Power	Fear	Dependence on boss
②	Security	Salary & benefits	Dependence on company
③	Leadership	encouragement	Job satisfaction
④	Teamwork	responsibility	commitment
⑤	Values & trust	Purpose	Loyalty
