

UNIT-II : INDIVIDUAL BEHAVIOUR

1. Personality

Meaning

Personality means the **way a person thinks, behaves, and reacts**.

👉 It shows:

- how a person talks
- behaves with others
- handles situations

Example

- Friendly person 😊
- Angry person 😡
- Silent person 🤫

All these are personality types.

Factors Affecting Personality

a) Heredity

Traits from parents.

b) Environment

Family, friends, culture.

c) Situation

Behavior changes based on situation.

Importance

- Helps in teamwork
 - Improves communication
 - Affects job performance
-

2. Perception

Meaning

Perception means **how a person understands or sees something**.

👉 Different people think differently about the same thing.

Example

Teacher scolds student:

- One student thinks teacher cares ❤️
- Another thinks teacher is rude 😞

Same situation → different perception.

Factors Affecting Perception

- Experience
- Mood
- Attitude
- Knowledge

Errors in Perception

a) Halo Effect

Judging by one quality only.

b) Stereotyping

Judging based on group.

c) Projection

Thinking others are like us.

3. Learning

Meaning

Learning means **change in behavior due to experience or practice**.

Example

- Learning coding
- Riding bike
- Communication skills

Types/Theories

a) Classical Conditioning

Learning by association.

✦ Example:
Bell sound → food → dog reacts.

b) Operant Conditioning

Learning through rewards and punishment.

✦ Example:
Employee gets bonus for good work.

c) Social Learning

Learning by observing others.

✦ Example:
Junior copies senior employee.

4. Attitude

Meaning

Attitude means a person's **feeling or opinion** about something.

Example

- Positive attitude 😊
- Negative attitude 😞

Components of Attitude

a) Cognitive

What we think.

b) Affective

What we feel.

c) Behavioral

How we act.

5. Values

Meaning

Values are **beliefs about what is right or wrong**.

Example

- Honesty
- Respect
- Discipline

Importance

- Guides behavior
 - Helps in decision making
 - Improves ethics
-
