YouTube [* Theories of Leadership]

1. Great Man theory:

- Suggests that leaders are born with skills required for leadership.
- ↳ Born with leadership skills (by birth)
- Says that leadership ability is inherent.
- "great leaders are born, not made"

2. Trait theory

- New "leadership behaviours" are compared with old & effective behaviour.
- to determine if they are effective or not.
- compare → then decide (who is best)

3. Contingency theory; (situation)

- Should not set predefined rules.
- Leadership style should change according to situation (not predefined style)
- Also suggests that great leadership is a combination of many important factors

4. Situational Theory (Similar to Contingency)

- Suggests that leaders should always change their leadership style according to situation
- by considering type of task, ~~nature~~ etc.

5. Behavioural Theory

- Focuses on behaviour & actions of leadership
- Instead of their character.
- 3 behavioural skills are required
 - technical
 - human
 - conceptual

Character - good/bad ✗
