

UNIT-3 : Group Behaviour

- Organization structure ✓
- Formation ✓
- Groups in organizations ✓
- Influence ✓
- Group dynamics ✓
- Emergence of informal leaders & working norms ✓
- Group decision making techniques ✓
- Team building ✓
- Interpersonal relations ✓
- Communication } ✓
- Control } ✓

* Groups in Organizations: Formation & Types

→ Groups are the building blocks of an organization

Def: Two or more individuals interacting & interdependent to achieve specific goals.

→ People join groups :

- Security
- Affiliation
- Status
- Goal achievement
- Power

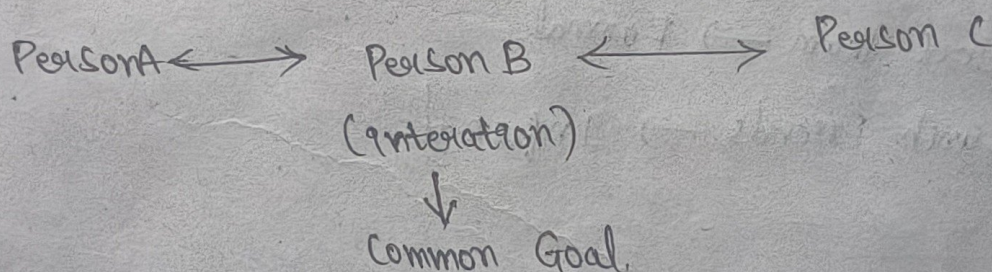

→ A group means a team of People.

→ They talk to each other.

→ They work together for one goal.

ex: ① College Project team

②. Friends preparing for exam together

Real-world ex:

→ In a company:

- Developers + testers + manager = group
- They work together to complete project.

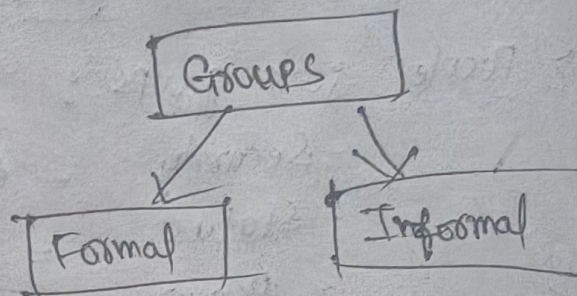

Types — (2) — Formal
Informal

→ Groups are classified based on how they are formed in an organization

① Formal Group ⇒ (Official)

→ Created by organization

ex: • Office team
• Project team

② Informal Group ⇒ (Unofficial)

→ Created naturally

ex: • Friends

Ex: In a office:

— Project team → Formal

— Lunch Friends → Informal

* Group Decision Making Techniques

→ Decision making is done by group instead of a single person.

Techniques

1. Brainstorming:

- Spontaneous ideas (Sudden)
- Initially, all ideas are gathered.
- Then ideas are evaluated.
- Criticism is not allowed (ex: Your idea is silly, X)
Stupid
- People are encouraged to give ideas.

2. Nominal Group Technique (NGT)

- Each person will silently list their ideas
- Won't tell in public
- all ideas are written on chart
- ~~if~~ ~~any~~ each idea - Votes
majority wins

3. Delphi Technique

- used for forecasting future events
- 15 to 20 experts are involved
- Question bank is sent to experts
↓
any doubts
- No interaction b/w experts
- Last, all answers are collected from experts

4. Devils Advocate

one person → critic (negative)
→ critic will raise all the problems with each idea.

→ Other people : should give explanations to those problems & convince critic

5. Electronic Meeting

→ Members of group interact with each other through computers.

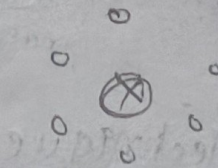

- Projector is used.

- through google meet, video conference.

6. Fish Bowling

all people → ^{set} circular manner (round table)

one person → at center
↓
give ideas.

→ No two people should speak with each other.

→ only talk with person at center.

* Communication, Control

- Commⁿ plays a crucial role in ob.
- It is a process of exchanging info b/w individuals or groups.
- It is essential for coordination & decision-making.

Sender $\xrightarrow{\text{MSG}}$ ~~MS~~ Receiver

Types of commⁿ

1. Formal commⁿ → official commⁿ

- Follows official channels in orgⁿ
- Structured & planned.

(ex) email

2. Informal commⁿ

- unofficial commⁿ
- happens naturally.

(ex) friendly talks

3. Downward commⁿ

⇒ from top level to low level

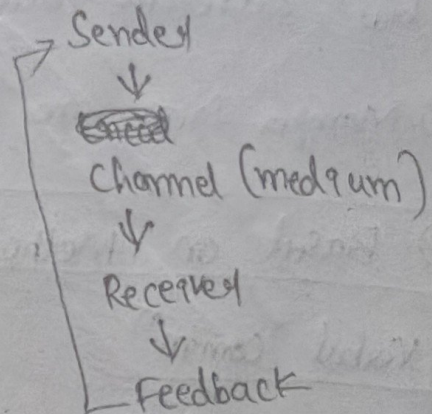

⇒ Managers to employees

(ex) Instructions, Policies

4. Upward commⁿ (from low to top level)

⇒ Employees to managers

(ex) Feedback, Complaints

Based on Formality

Based on Direction Flow

③. Horizontal Commⁿ (Same-level)

→ b/w same-level employees

ex: Team discussion

④. Diagonal Commⁿ

→ b/w different departments & levels.

ex: Managers from one dept commⁿ with another dept staff

⇒ Based on Method

①. Verbal Commⁿ

→ Spoken commⁿ

ex: calls, meetings

②. Non-verbal Commⁿ

→ Body language, gestures

ex: facial expressions.

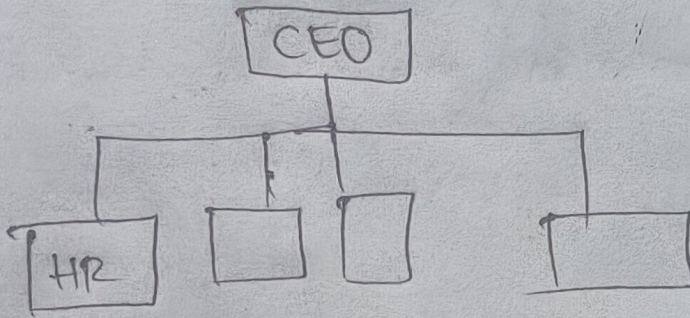

③. Written Commⁿ

→ written form

ex: reports, emails.

* Organizational Structure

→ The Framework showing who does what, who reports to whom, & how infoⁿ flow in orgⁿ

⇒ A person become leader without any official position.
* Emergence of Informal Leaders

- Informal leaders are people who influence others without official authority.
- In every orgⁿ, apart from formal leader, informal leaders also exist/emerge.
- An informal leader is a person who influences others through personal qualities, not position.

⇒ Reason of →

1. Personal Qualities

UNIT 3 – GROUP BEHAVIOUR

GROUP COHESIVENESS

Definition

Group cohesiveness refers to the degree of attraction and unity among group members.

Factors Affecting Cohesiveness

- Similar interests
- Group success
- Good leadership
- Effective communication

5) Formal and Informal groups

Formal group

- 1) Created by organization for official work
- 2) Planned and structured
- 3) ^{to} Achieve organizational goals
- 4) Clearly defined roles and rules
- 5) Based on official position
- 6) Official communication
- 7) Appointed manager
- 8) more stable
- 9) focus on work oriented
- 10) less flexible
- 11) less emotional bonding
- 12) ~~planned~~ large size

Informal group

- 1) Formed naturally by people
- 2) spontaneous (no planning)
- 3) social interaction, friendly
- 4) No fixed structure
- 5) Based on personal influence
- 6) Friendly communication
- 7) Natural leader emerges
- 8) Less stable
- 9) Relationship oriented
- 10) High
- 11) strong
- 12) small

Group Cohensiveness

Group Cohensiveness means the strength of relationships and unity among group members. it shows how strongly members stick together and work as one team.

Features:

- strong unity among members
- mutual Trust → high cooperation
- sense of belonging
- members feel "we are one team"
- small groups have more cohesiveness
- large groups have less "
- Success increases unity
- open communication
- Better Relations

Advantage

- Better Teamwork
- High productivity
- Job satisfaction
- low conflicts
- strong coordination.

Dis

- group pressure
- Less creativity
- conflicts with other groups.

Group Cohensiveness = Unity + Bonding + Team Spirit

1) Tuckman's 5 Stages of Group Development

Bruce Tuckman introduced the model of group development in 1965, later adding the 5th stage.

→ In any organization, people work in teams to achieve common goals.

However, a team does not become successful immediately. It passes through different stages of development.

Tuckman identified five stages:

Forming → Storming → Norming → Performing → Adjourning

1. Forming Stage

This is the initial stage where the group is created.

Characteristics:

- members meet for the first time.
- Behaviour is polite and formal
- Roles and Responsibilities are unclear
- members depend on leader for guidance

Importance

→ Helps members understand the purpose of group

→ Builds initial Relationships.

Ex: Students Forming a team for Project

2. Storming stage (Conflict stage)

This stage involves conflicts and disagreements among members:

Characteristics:

- Differences in opinions and ideas.
- Power struggles may arise
 - members may challenge the leader
- Emotional tensions and Frustration
- misunderstandings.

Importance:

- Helps in identifying problems
- Encourages expression of ideas.

Ex: Team members arguing about Project approach.

3. Norming stage (Cooperation stage)

At this stage, the team begins to resolve conflicts and work together.

Characteristics:

- Conflicts reduce
- group norms and rules are established.
- members start trusting each other.
- Cooperation and teamwork increase

Importance:

- Builds team unity
- Improves communication

Ex: Team members agreeing on roles and working methods.

4. Performing Stage

This is the stage where the group is Fully Functional & Productive.

Characteristics:

- High Level of cooperation.
- Roles are clear and accepted.
- Members are motivated and focused.
- efficient problem solving.

Importance:

- Achieves organizational goals.
- Maximizes productivity.

Ex: Team successfully completing a project with good coordination.

5. Adjourning Stage (Termination stage)

This is the Final Stage, where the group completes its task and disbands.

Characteristics:

- Task completion.
- Team members leave the group.
- Feeling of satisfaction or sadness.

Importance

- Recognizes team efforts.
- Provides closure.

Ex: project team disbanding after successful completing completion.

2) Conflict Resolution Strategies

→ Conflict is common in organizations when people have different opinions, goals or interests.

→ managing conflict properly is very important for teamwork and productivity.

Conflict Resolution:

Conflict Resolution is the process of reducing or solving disagreements between individuals or groups in a positive way.

Conflict Resolution Strategy

There are 5 important strategies

1. Avoiding (ignoring conflict)

→ The person ignore conflict

Characteristics:

- No direct communication
- Problem remains unsolved (Disadv)
 ↓
 may become serious later
- Temporary solution suitable when:
 - issue is minor
 - need time to think

Adv

Reduces immediate tension

useful for small issues.

Ex: Ignoring a minor misunderstanding with a colleague

2. Accommodating Strategy (Smoothing)

In this approach, one party sacrifices their own interests to satisfy other.

Characteristics:

- one sided solution
- focus on relationship
- peaceful approach

Suitable when:

- You were wrong
- Relationship is more imp.

~~Adv~~: Adv

→ Builds Relation

→ maintain harmony

Dis adv

one side way

may reduce self respect

Ex: Accepting your team mate's ideas to maintain Peace.

3. Competing Strategy (Forcing)

one person win, others loses.

Characteristics:

When to use:

→ Aggressive approach

→ Uses power

→ Quick decisions

→ Emergency situation

→ Quick action needed

Adv

Dis adv

→ Damage Relationship

→ Create stress

→ Fast resolution

→ useful in emergencies

Ex: manager give final decision

4. Compromising Strategy (Give & Take)

Both parties give up something to reach a middle solution.

Characteristics:

- Partial satisfaction
- Balanced approach
- Quick settlement

Suitable when:

- Equal power exists
- Time is limited

Adv

- saves time
- Fair soln.

Dis adv

- no one fully satisfied
- may not be best soln.

Ex: Sharing responsibilities equally in a team.

5. Collaborating Strategy

This is the best strategy, where both parties work together to find win-win soln. (Both sides win)

Characteristics:

- open discussion
- creative soln.
- high satisfaction

when to use:

- imp issues
- Long term relationship

Adv

- Best outcome
- Strong Relationship
- long-term soln.

Dis adv

- Time consuming
- Requires effort

Ex: Team discussing & selecting the best idea together.

◆ Comparison Table

Strategy	Outcome	Nature
Avoiding	Lose-Lose	Passive
Accommodating	Lose-Win	Cooperative
Competing	Win-Lose	Aggressive
Compromising	Partial	Balanced
Collaborating	Win-Win	Ideal
